

ENGLISH TERM	TRANSLATED TERM (ISINDEBELE)
alternative hypothesis	ihayiphothesisi ehlukeleko
bar graph	igrafu yebha
binomial experiment	ilingelelo elincambili
binomial probability distribution	isilinganiso esiveza imiphumela emibili engafaniko
box plot	ukuveza iimbalo ngegrafu
central limit theorem	ithiyoremu yomkhawulo ophakathi
class midpoint	inani eliphakathi lesigaba
classical method	indlela yakade
cluster sampling	ukusampulwa kwebuthethelelo
coefficient of variation	ukwahluka kwezandisi
conditional probability	umhlamunyiselo ngokwesimo
confidence level	izinga lamasampula wepharamitha yenani labantu
continuous random variable	inani elitjhugutjhugulukako elingakahleleki eliragako
convenience sampling	ukusampula okubulula
correlation coefficient	isandisi sokufanisa
covariance	isilinganiso sokwehlukana kwamanani atjhugutjhugulukako
critical value	ifektha yokuveza umtjhapho wokusampula
cross-sectional data	idatha etholakala ngokubala izinto ezinengi ngasikhathi sinye
crosstabulation	amathebula wedatha alula
cumulative frequency distribution	ukusabalala kwesamba esingezeleleka kancani
cumulative relative frequency distribution	ukusabalala okukhambelanako kwesamba esingezeleleka kancani
data	idatha
degrees of freedom	amazinga wekululeko
descriptive statistics	iimbalo ezihlathululako
discrete random variable	inani elitjhugutjhugulukako elingakahleleki elifihlakeleko
discrete uniform probability distribution	ukusabalala okungenzeka okufanako nokufihlakeleko
event	imiphumela yelingelelo
expected value	inani elilindelekileko
exploratory data analysis	itsengo yedatha ephathelene nokuhlola
five-number summary	isirhunyezo seenomboro ezihlanu
frequency distribution	ukusabalalisa okungezeleleka kancani kancani
grouped data	idatha etlhophisiweko
histogram	ihistogramu
independent events	imiphumela yelingelelo elizijameleko
independent samples	amasampula azijameleko

interquartile range (IQR)	isilinganiso sokungenzeka eenqhemeni ezingakune
interval estimate	isilinganiso someqombalo
interval scale	isikali someqombalo
joint probability	umhlamunye iselo ohlangeneko
judgment sampling	ukusampula okweyame esiquntwini
level of significance	izinga lokwaliwa kwesitatimende esihlolwako
margin of error	ubutjhapha bokusampula
marginal probability	okungenzeka ukuthi inani elitjhugutjhugulukako lithathe obunye ubungako
mean	avareji
median	inomboro ephakathi kezilandelanako
mode	umngenelamasede
nominal scale	ukuhlelwa kwedatha ngokufihlakeleko
normal probability distribution	ukwaba okungenzeka okujayelekileko
null hypothesis	ihayiphothesisi engekho
ogive	igrafu yokuthola ubungako bedatha
one-tailed test	ihlobo yehayiphothesisi yombalobalo
ordinal scale	isikala esitjengisa idatha
outlier	okubonakala ngaphandle kwebanga lelilindelekileko
percentile	inani elingaphasi lamaphesente idatha ewela kilo.
pie chart	iphayitjhadi
point estimate	isilinganiso esisetjenziselwa ukulinganisa ipharamitha yenani labantu
point estimator	silinganisi esisetjenziselwa ukulinganisa ipharamitha yenani labantu
pooled variance	indlela yokulinganisa ukwehluka kwenani labantu
population	inani labantu
population parameter	ipharamitha yenani labantu
probability	umhlamunye iselo
probability density function	umsebenzi wedensithi yomhlamunye iselo
probability distribution	ukusabalalisa ngokungezelela
P-value	ubungako baka-P
qualitative data	idatha ehleleke ngeengaba
quantitative data	idatha etholakala ngokubala
quartile	isiqhema sangakune esilinganako
random variable	inani elitjhugutjhugulukako elingakahlungwa
range	umehluko / irherho
ratio scale	isikali sokulandelandelana

rejection region	indawo yobungako bomhlobo wokwaliwa khona ubudlelwana behayiphothesisi
relative frequency distribution	ukusabalalisa inani lokubuyelela kweenkhathi zemiphumela yokulinga
relative frequency method	inani lokubuyelela kweenkhathi zemiphumela yokulinga
sample	isampula
sample point	indawo yokusampula
sample space	isikhala sokusampula
sample statistic	imbalobalo zokusampula
sampling distribution	ukusabalalisa amasampula
sampling error	umtjhapho wokusampula
sampling with replacement	ukusampula ngokujamiselela
sampling without replacement	ukusampula ngaphandle kokujamiselela
scatter diagram	igrafu ekhombisa ubudlelwana bamanani atjhugulukako amabili
simple random sampling	ukusampula okulula nanyana ngiyiphi inomoro
standard deviation	ukuhluka okusezingeni
standard error	ubutjhapha obusezingeni
standard normal probability distribution	ukwaba ngokuhlawumbisela okujayelekileko okusezingeni
statistical Inference	kususelwa emqondweni yeembalobalo
stem-and-leaf display	ukukhombisa isiqu nesiqhema
stratified random sampling	ukusampula ngokungakhethi amakoro
subjective method	indlela eyeyame emiqondweni
test statistic	ubungako obulinganisiweko / imbalobalo zehlolo
time series data	idatha yelandelelo lesikhathi
two-tailed test	ihlolombalo elincambili
type I error	umtjhapho omhlobo woku-1
type II error	umtjhapho omhlobo we-2
unbiasedness	ukungathathi ihlangothi
uniform probability distribution	ukusabalalisa ukungezeleleka ngokujayelekile
variable	inani elitjhugutjhugulukako
variance	ukungafani
weighted mean	isibalosikhathi esinenobudisi
